### Clackmannanshire Council - Final Draft Core Paths Plan

The Paths for All Partnership welcomes the opportunity to comment on the final draft Core Paths Plan for Clackmannanshire. Throughout the consultation phases our aim has been to assist access authority staff to produce, in the formal consultation phase, a draft plan that meets the requirements of the Land Reform (Scotland) Act 2003 and the associated Scottish Government's guidance, as well as the guidance produced jointly by the Partnership and SNH. Our goal has been the production of a clear and informative draft plan that will help the reader understand the core paths network in their area and the rationale for that network. In particular, our focus has been on the quality and sufficiency of the plan.

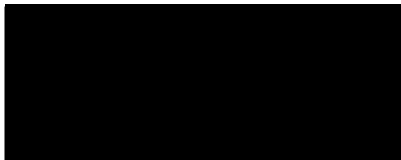

This response is a follow-up to our previous comments on the consultative plan. However, it is important to recognise that this letter does not constitute a formal response to the draft plan.

We are pleased to see that some of our comments regarding the earlier draft plan have been addressed, particularly those that related to mapping and cross boundary paths. However, it is disappointing that comments concerning the sufficiency of the network and those that related to supporting text were not addressed.

The Partnership commends the Council for the vast amount of hard work that has gone into the development of the draft Core Paths Plan to date.

We wish you well with the draft Core Paths Plan and look forward to continuing to work with you in the future and in the implementation of your approved plan.

Yours sincerely

Colin Ward
