*'Investing in your home'*

**The Council is about to replace the roof of your home. This leaflet contains important information about this work and how it could affect you. Please read this leaflet and keep it in a safe place for future reference.**

The work may vary slightly from what is in the leaflet depending on the type of property you live in.

### Why is this work being carried out?

The roof covering (normally tiles, slates or felt) is old and needs to be replaced to prevent water entering and damaging your home.

### What work is involved in the roof replacement?

Scaffolding will be erected around your home to enable the contractor to reach your roof.

The contractor will then remove the existing roof covering, any timber battens and under felt. The existing roof timbers will be checked for any signs of decay. The

work will normally take between two and three weeks. It will take slightly longer to complete the work if the roof timbers also need to be replaced.

When the original roof is removed, a waterproof covering will be fixed to the building. This will ensure your home is wind and watertight while the new roof is fitted.

The time taken to fit your new roof will depend on whether it has tiles, slates or specialist insulated felt.

All our publication can be made available in large print, braille, audio tape and the following languages. This leaflet contains information about improvement work to your home. If you would like this information translated, please call 0845 055 7070 and ask to speak to the Investment Programmes Officer, who will arrange for translation. Or you can bring this booklet to Council offices at Kilncraigs and ask at reception.

I Tento leták obsahuje informácie o údržbových a zlepšovacích prácach na Vašom dome. ہاؤس پر لائے جاسکتے ہیں اور ریسپشن پر پوچھیں۔

## When will the work start?

Following the appointment of a contractor our Contracts Liaison Officer will write to tell you of the intended start date for work in your area. There may be a slight delay as the actual start date is approximate and will depend on our discussions with the contractor and any other phases. One week before we start work in your home, the contractor will tell you the actual date for beginning work.

The Council's Contracts Liaison Officer will handle any queries or complaints, they will be your main point of contact within the Housing Service for this work in your home.

## How long will the work take?

The work will normally take two to three weeks depending on the weather and type of roof involved.

## What should I do before the work starts?

You may need to give the contractor access to your loft area during this work. It would be advisable to remove your belongings from the loft as we cannot guarantee weather conditions during the work.

You may also have to move garden furniture, vehicles etc, away from the outside wall of the house to make space for the scaffolding.

Further guidance will be provided prior to works commencing at your property.

## Will there be any disruption?

As the work is on the outside of your home the disruption should be minimal. You may hear some noise but, this should not be too loud or go on for too long. The contractor will remove waste building material or place them in a skip for removal from site.

T.V aerials and satellite dishes will be have to be removed, which may cause some disruption. It may be possible to re-sited aerials and dishes temporarily.

## How will I know the work has been done properly?

Clackmannanshire Council will ensure the work is completed to a high standard and meets a detailed specification.

## Security

You should check the identity of any individual before allowing them into your home. The Council's staff and contractors working on our behalf carry identity cards. If you are in any doubt about visitors, don't let them in.
