Community

Supervision
Requirement

Breaking the cycle of re-offending

What is Community Payback Supervision?

A Community Payback Order is a sentence and is imposed as alternative to imprisonment and also for fine default.

A Case Manager is allocated to each Community Payback Order. The purpose of Community Payback is to:-

- To assist the individual to change his/her behaviour to reduce the risk of further offence
- Work with the offender to achieve compliance

The Case Manager and individual will work to a risk management plan, which will be reviewed at regular intervals.

The Case Manager will decide frequency of contact in accordance with assessed risk levels and in consideration with the offender and what the offender and the Case Manager have to do to successfully complete the Community Payback Order.

What is a Supervision Requirement?

A supervision requirement can be imposed by the Court to assist you to address areas of your life that are associated with your offending behaviour. This can include support to address, for example, your alcohol use, drug use, anger management, or unemployment.

You will work with your Case Manager to create a Case Management Plan, which will identify the issues that require attention, and the work that will be undertaken to achieve this.

In addition to a Supervision Requirement, the Court may also impose additional requirements. These will focus on areas identified as increasing your risk of re-offending. The additional requirements are:

- Unpaid Work and Other Activity
- Supervision and Mental Health
- Supervision and Alcohol Treatment
- Supervision and Drug Treatment
- Supervision and Programmes
- Supervision and Conduct Requirement
- Compensation
- Residence Requirement

If any of these are imposed your Case Manager explain in greater detail what this means.

What must I Do?

- You must attend all appointments either at the Criminal Justice Office or at your home.
- You must inform your Case Manager if you are unable to attend any appointment.
- You must undertake the work identified in the Case Management Plan.

What must the Service Do?

- Provide you with support to engage with the supervision requirement.
- Work with you to create an appropriate Case Management Plan.
- Complete the work identified in the Case Management Plan, and provide an explanation if this has not been completed.
