Loading / Parking Bay, Bridge Street, Dollar

Over the last 24 months Roads & Transportation has consulted on the above proposal. Thank you once again for your assistance in the consultation and decision process for this scheme. Whilst the consultation responses were overwhelmingly in favour of the indented parking / loading bay being constructed there were concerns about the changes to the footway which led to a delay in implementing the proposal.

A particular concern was the loss of opportunity to use this area as an outdoor cafe /coffee shop. However, after due consideration, it is clear that it would be impossible to permit such use of this area whilst delivery vehicles and cars were using part of the footway. Given the clear demand for short term parking and the need for space for delivery vehicles at this location, we have decided to proceed with the construction of the parking / loading bay. The footway is publicly adopted right back to the building line therefore there are no ownership issues.

Our proposal is to extend the loading / parking bay to the full length of the footway to allow short term parking for shop customers and space for deliveries (see plan on reverse). The loading / parking bay will render the illegal parking vehicles on the footway both unnecessary and impractical and will also reduce the need for intrusive bollards.

The works will be delayed until the school summer break given the large numbers of pupils who gather here at lunchtimes during the school year. **The works are programmed to commence on 2nd July 2012 and will take up to six weeks to complete and there will be some disruption over this period.** During the construction period, every effort will be made to ensure full pedestrian access along the footway at all times and to accommodate delivery vehicles.

If you have any issues with the above, please contact Alan Murray at amurray@clacks.gov.uk or at Roads & Transportation, Community & Regulatory Services, Clackmannanshire Council, Kilncraigs, Greenside Street, Alloa, FK10 1EB
