

Participation Requests Reporting Template 2020/21 for Public Service Authorities

Section 32 of the Community Empowerment (Scotland) Act 2015 requires public service authorities to produce an annual report on Participation Request activity and publish this no later than 30 June each year. This template has been created to gather participation request data for the period 1 April 2020 to 31 March 2021. Information provided will help inform policy and practice at local and national level as the data will be collated and shared by the Scottish Government's Community Empowerment Team. However, it is for each public service authority to make their own annual report publicly available by 30 June 2021, whether using this template or not.

Please provide information in the four sections below and email the completed template by 30 June 2021 to community.empowerment@gov.scot.

2.1 Please provide details of Participation Requests received using the legislation and outwith the legislation in 2020/21 which resulted in changes to public services provided by or on behalf of your public service authority and tell us about those changes:

Name of Community Participation Body	Was the Participation Request successful? (Y/N)	Previous way of working	Way of working following changes	What difference did those changes make for the users of the service? Did they improve service user experiences or outcomes?	Details of any participation requests considered outwith the formal process e.g. agreements reached that resulted in changes to services.
Dollar Community Development Trust	Y	Consulting with stakeholders on changes directly affecting them	Working together with stakeholders on changes directly affecting them	Users entered into dialogue and shared local knowledge relating to the change	Request for dialogue was not submitted under the terms of legislation but was in effect a PR
Tillicoultry Coalsnaughton & Devonside Community Council	Y (decision was made after end of reporting period)	Consulting with stakeholders on changes directly affecting them	Schedule of contact for each stage of developments relating to Planning matters	ongoing	n/a

2.2 Please use this space to provide any further comments relating to the above data, such as describing the **outcome improvement process** (whether or not it resulted from a formal participation request) and how the community participation body was involved in it, or details of any wider benefits, such as improved community engagement and ongoing participation.

We encouraged the community body in question to suggest the outcome improvement process and adhered to their suggestion where possible. The outcome improvement process in these PRs is ongoing.

Section Three – Partnership Working & Promotion of Participation Requests

3.1 Please provide details of any engagement with support organisations such as local Third Sector Interfaces and public sector Community Learning and Development staff or national organisations such as the Scottish Community Development Centre.

For example has any new practices to support Participation Requests been developed from working with other bodies, or any learning gained?

Engagement activities were curtailed in the reporting period as a direct result of the covid 19 response priorities.

3.2 Please provide details of action taken to promote the use of Participation Requests or support Community Participation Bodies in making a Participation Request.

For example this could include: Support before making a request, such as to determine whether a participation request is the most appropriate route; - Support to make the request such as assist groups to complete forms, or identify appropriate outcomes; and/or Support to take part effectively in outcome improvement processes (whether or not they resulted from a formal participation request).

In both cases, the community body in question contacted the Council's Lead Contact for advice in advance of submission on whether or not a PR was appropriate in the circumstances and what the alternatives were, and then on the content of the PR itself. Following submission, the community bodies sought further advice on the process and on their own preparations for the eventual dialogue.

3.3 Please let us know what actions you have been taking to ensure that your processes are inclusive.

For example, this could include accessible information and other support, which enable wider use of participation requests by all population groups including those with protected characteristics.

Our promotional material actively encourages prospective community bodies to speak to us on a one-to-one basis before initiating the formal process.

3.4 Please outline any plans you have to continue involving local people and local groups in outcome improvement processes as a result of your Participation Request policies (and also outwith formal participation requests).

In both cases, the community body's contribution to the process is to ensure local people are informed and involved where relevant.

3.5 Please provide details about any work undertaken to consider wider reviews of participation practice, and any such methods used to engage with communities.

Activities in this respect were curtailed in the reporting period due to the prioritisation of our response to covid 19.

Section Four – Additional Information

4.1 Please use this space to provide any further feedback not covered in the above sections.

For example, we are interested in your reflections about what has gone well and what has gone less well in relation to Participation Requests over the past year?

Is there any aspect of the process that you intend to adapt or change in the year ahead?

Have you identified any needs for guidance or support that would support the process?

If you have developed any case study material or published new information about Participation Requests please share links to those with us here.
