

Strategic Housing Investment Plan 2024- 2029

1.0 Introduction

1.1 The Strategic Housing Investment Plan (SHIP) 2024/29 defines the priorities for housing investment, as set out in the Local Housing Strategy (LHS) 2018-2023 vision, that;

"Everyone should have a safe area to live in, a well maintained house and help when they need it.'

- 1.2 To achieve this vision through investment, our aim is to create a more effective local housing system, which delivers both economically balanced and sustainable communities. This in turn shapes our key objectives of providing the right houses, in the right location, delivering both choice and affordability.
- 1.3 It is worth noting that the strategic plans for new housing supply in Clackmannanshire remain. However, a new Housing Need and Demand Assessment (HNDA) is due for completion in July 2024. This emerging evidence will drive future policy around providing new homes in Clackmannanshire and ensure the SHIP remains relevant to delivering key priorities.
- 1.4 Links to corporate priorities, such as the LHS and Local Outcome Improvement Plan (LOIP), remain and are outlined as per previous guidance notes.
- 1.5 In July 2021, The Scottish Government provided a 5 year Resource Planning Assumption (RPA) for Clackmannanshire totalling £29.737million.

| 2021/22 | £6.666 | million |
|---------|--------|---------|
| 2022/23 | £5.746 | million |
| 2023/24 | £5.73 | million |
| 2024/25 | £5.75 | million |
| 2025/26 | £5.845 | million |

2.0 Clackmannanshire Housing Strategy

- 2.1 Our Local Housing Strategy 2018-2023 identifies six priority areas and outcomes to be achieved:
 - Investing in New Housing Supply Quality, affordable housing is maximised.
 - Best Use of Existing Housing The housing we already have is optimised and effective in providing choice and meeting need.
 - Homelessness Households have access to appropriate housing and advice to reduce homelessness.

- Specialist Housing and Independent Living Those requiring assistance to live independently at home have access to effective housing.
- Energy Efficiency and Fuel Poverty Energy efficiency is improved and fuel poverty and carbon emissions are reduced across all tenures.
- Improving Neighbourhoods and Communities Improve long term outcomes for local communities and target town centres for improvement and regeneration to benefit the community.
- 2.2 In addition to the above, the Local Housing Strategy states further broad actions which are being delivered through this investment programme;

| LHS Key Actions | Progress |
|---|-------------|
| Work with partners including planning and Scottish Government to maximise the amount of additional homes provided across all tenures. | D i |
| Where possible, use Council land and assets to support new affordable housing. | |
| Use income from reduction in Council Tax discounts to support delivery of affordable housing. | |
| Work with Registered Social Landlords (RSLs) to deliver new affordable housing and maximise funding from all sources. | |
| Continue to implement and review the Affordable Housing Policy, implemented through the Local Development Plan (LDP), including commuted sums and on-site provision of affordable housing where required. | |
| Promote housing development in a range of settlement centres to contribute to economic regeneration whilst addressing housing need. | > |
| Maintain a programme to purchase existing housing for affordable rent. | > |
| Investigate how the RSL sector can play a greater role in housing homeless applicants. | > |
| Work with the Health & Social Care Partnership to plan and provide specialist housing for the elderly and adults with particular needs. | |
| Explore new models of supported accommodation for young people. | |
| Deliver specialist housing on all appropriate new housing developments | > |

¹ Ongoing

3.0 Rapid Rehousing Transition Plan

3.1 The Rapid Rehousing Transition Plan (RRTP) was submitted to the Scottish Government in December 2018 and is being implemented by the Council. Minimising time spent in temporary accommodation and having access to suitable housing is a key priority in the RRTP and consistent with housing priorities. Specific outcomes from the RRTP to be delivered through housing investment are detailed below.

As at March 2022 Clackmannanshire had the 3rd highest level of homelessness households per head of population. However, those who find themselves homeless in Clackmannanshire only spend an average of 176 days in temporary accommodation which is below the Scottish average of 211 days.

Clackmannanshire performs well in quickly providing permanent accommodation solutions for those found to be homeless. Most homeless households are ultimately housed in local authority or RSL accommodation after having spent a relatively short period waiting for permanent accommodation and, in part, attributed to additional affordable housing coming forward.

| Rapid Rehousing Transition Plan | Progress |
|---|----------|
| Accelerate affordable housing program over 5 year period to 2024 | 0 |
| Investigate how the RSL sector can play a greater role in housing homeless applicants. | |
| Ensure levels of temporary accommodation are maintained to meet statutory responsibilities. | |

4.0 Local Outcomes Improvement Plan (LOIP)

- 4.1 Replacing the Single Outcome Agreement (SOA), the Council and its' partners have set out their strategic outcomes in the Local Outcomes Improvement Plan 2017- 2027. Focussing on tackling the inequalities that exist in Clackmannanshire around poverty and socio-economic disadvantage, the four strategic outcomes driving strategic partnership working are:
 - Clackmannanshire will be attractive to businesses and people and ensure fair opportunities for all.
 - Our families, children and young people will have the best possible start in life.
 - Women and girls will be confident and aspirational, and achieve their full potential.

- Our communities will be resilient and empowered so that they can thrive and flourish.
- 4.2 We know that poor housing has a negative impact on health, wellbeing and quality of life. Our commitment to provide additional good quality, affordable housing goes a long way to contribute to improving the life outcomes of vulnerable families by reducing inequality and disadvantage in the housing market, and making Clackmannanshire an attractive place to live.

5.0 Links to Child Poverty

- 5.1 Set within The Corporate Plan 2018-22 child poverty is a key Council priority. Our priorities as a Council to 2022 are:
 - Inclusive growth, jobs and employability
 - Reducing child poverty
 - Raising attainment
 - Sustainable Health & Social Care
 - Empowering families and communities
 - Organisational transformation
- 5.2 It is recognised that the SHIP has a key role to play as an enabling plan specifically contributing to 2 of the Council Corporate priorities:
- 5.3 Reducing child poverty provide good quality affordable housing.

Research shows that one of the key drivers of children living in poverty is living costs and specifically housing costs. More affordable housing not only reduces direct housing costs but ensures new homes are energy efficient reducing heating and lighting costs. Improved infrastructure in new housing developments offers increased access to the internet for all.

5.4 Inclusive growth jobs and employability - increased house building.

Increased house building through SHIP programs will aim to provide local employment opportunities by contracting local companies and offering apprentice and training chances for local young people.

6.0 Links to City Deal and Transformational Change

6.1 Continuing and new priorities for the Council and its partners will be accommodated within the SHIP and the Local Housing Strategy. This will include work as part of the City Deal with Stirling Council and plans for future regeneration in Clackmannanshire.

Plans are well under way focusing on place based development and to create Transformational Zones in Clackmannanshire, beginning in Alloa. Derelict land in Alloa town centre has been utilised for a flagship affordable housing development for older people, completed in January 2023. The focus on Alloa as a well-being economy transformation zone will bring in principles of collective impact of initiatives and investment within placed-based contexts. This model will roll out to other areas of Clackmannanshire and will bring in affordable housing opportunities.

6.2 The Council was awarded £512,000 from the Placed Based Investment Programme, 2021/22. This has gone towards additional design measures required for the success of the Primrose Street, Alloa housing development to meet the strategic priorities of quality place making in the town centre.

7.0 New Housing Supply Targets

- 7.1 The current Housing Need and Demand Assessment (HNDA) is from 2018 and is therefore going through a refresh at the present time and is due for sign off in Summer 2024. While the figures quoted at 7.2 are from the present HNDA, early indications show the updated HNDA is likely to show a higher need for new housing.
- 7.2 Up to 2024, the annual estimated need for additional affordable housing in Clackmannanshire is around 26 homes, 15 of these for 'social renting' and 11 for mid market rent. It shows 5 properties required for rent by a private landlord and 18 required for sale on the open market.
- 7.3 Social housing demand in Clackmannanshire is fairly self-contained within settlements, so the location of new developments needs to be carefully considered. Availability of housing sites does not always match housing need and demand and continuing dialogue will be sought with developers to ensure that all opportunities for affordable housing are pursued in a wide range of locations.

8.0 Housing Needs

- 8.1 Findings from the 2018 HNDA research confirm some specific features of demand for Clackmannanshire;
 - The latest 2012 household projections to 2037 for Clackmannanshire show a fall in population.
 - Despite a falling population, 100 new households will form every year.
 Every one of these (100%) will be either single person or couple households, meaning additional, smaller houses are required.
 - Net outward migration of 16 to 29 year olds sits at around 100 annually, which is the highest for any age group.
 - By 2037 there will be 126% more people aged 75+, which is far above the Scottish average of an projected 86% increase, resulting in greater pressure for social care services in Clackmannanshire.

 By 2030 the number of people over 85 years will double, with a corresponding need for suitable / adapted housing and corresponding support in the community.

9.0 Specialist Housing

- 9.1 From the Council's own records (waiting list figures and information on social service cases) there are at least 10 families known to the Council who require larger size wheelchair housing.
- 9.2 From information gathered from the 2011 Census, around 3,700 people (7% of the population) in Clackmannanshire have some type of physical disability. It would therefore be reasonable to aim for 7% of all social housing to be suitable for those with some sort of physical disability, including those who require wheelchair use.
- 9.3 The Council will continue to provide an element of specialist housing on suitable sites to meet the identified needs currently on our waiting list. Over the course of the SHIP at least 10 wheelchair bungalows are planned as well as completion of 3 wheelchair units on Primrose Street and 3 on Elm Grove, Alloa.
- 9.4 One of the main drivers of the housing market is the ageing population and their requirement for specialist housing. This is the result of older people who need care (low cost but high volume) and higher infant survival and longevity for those with a learning disability (low volume and high cost). Housing suitable for both these client groups are considered in this SHIP.

10.0 Gypsy / Traveller Accommodation

- 10.1 There is one Gypsy / Traveller site in Clackmannanshire at Westhaugh. This has now reached the end of its useful life in terms of the quality of accommodation. A virtual engagement session was held with residents in October 2020 to discuss site improvements. As a result, the site is being completely redeveloped to provide brand new accommodation to suit how residents want to live in the future.
- 10.2 The overall objective of the project is to meet the council's equalities and human rights obligations to gypsy travellers by providing modern high quality accommodation, designed and specified to meet the community's needs. This project aims to:
 - Demolish all existing amenity blocks and manager office
 - Provide modern, culturally appropriate accommodation to cater for 16 households
 - Build 1 new management base including communal meeting room
 - Reconfigure external landscaping to ensure each pitch satisfies Scottish Fire and Rescue Service (SFRS) layout requirements

- Provide safe storage facilities for Butane gas used for by each caravan (caged & 1m from buildings)
- Improve soft landscaping to create a more attractive and inclusive community environment
- Provide visitor parking facilities with electric car charging points
- Provide a new playground that is safe and secure
- Replace the communal macerator with a suitable waste disposal system

11.0 Partnership Working

- 11.1 The Council will continue an inclusive and collaborative approach with all RSLs that are keen to work with us to deliver affordable homes in Clackmannanshire. This includes working collaboratively with Kingdom Housing Association to help deliver a strategic programme of affordable housing delivery.
- 11.2 Ochil View Housing Association entered into an agreement with Kingdom Housing Association to manage their development work and work was completed on Elm Grove, Alloa in January 2023.
- 11.3 Primrose Street in Alloa town centre is complete and provides housing for older people. Design and specification was worked up with input from Social Services. Engagement with Architecture and Design Scotland (a non departmental public body) advised on the design of the housing on Primrose Street and gave support with briefing on wider provision for housing for the elderly, linking to work on 'Caring Places' and 'Town Centre Living'.

12.0 The Planning Context

- 12.1 Any new housing development should address the needs of the people of Clackmannanshire, regardless of tenure. The key mechanism for this is the planning system. We are working alongside planning colleagues to create a mix of housing sizes and tenures with the aim of providing housing opportunities for all and helping to prevent market failure.
- 12.2 The Local Development Plan was adopted by Council in August 2015. This includes provision for the delivery of affordable housing, which is supported by the Housing Needs and Demand Assessment. The Affordable Housing Policy (SC2) includes that housing proposals for 20 or more homes, or over 1 hectare, will be expected to include a range and choice of house types, tenures and sizes, including affordable housing.
- 12.2 The LDP remains relevant but is going through an update incorporating new National Planning Framework 4 legislation.

13.0 Particular Policy Initiatives

13.1 Council & RSL purchase of existing housing for social renting

The Council and Ochil View Housing Association maintain the commitment to make 'off the shelf' purchase a means of delivering affordable housing.

Paragon Housing has recently approached the Council and the Scottish Government to purchase properties off the shelf. Paragon will be targeting properties in their own stock where they can become majority owners to enable capital works and upgrade energy efficiency of the stock. They have planned to purchase up to 5 properties in 2023/24.

The Council has accelerated their program of buying properties 'off the shelf' for 2023/24 and aims to buy up to 40 properties this year, with a Scottish Government funding contribution of £1,800,000.

Currently, 25 off the shelf properties have been purchased this financial year by the Council, Ochil View have purchased 5 properties.

Any purchases made after 16 December 2022 have been subject to an increased rate of 6%. For this reason, and higher house purchase prices, a grant of £45,000 per unit has been requested from the Scottish Government in line with other local authorities.

It should be noted that RSLs are exempt from this tax.

13.2 Reduction in Council Tax Discount on Empty Homes

There is currently around £157,200 ring fenced for use for affordable housing. This is to be utilised this financial year as follows:

• Engelen Drive, £30,000 towards demolition costs.

13.3 Adaptations and Health & Social Care

The Housing & Social Care Group report to the Integrated Joint Board of the Clackmannanshire and Stirling Health & Social Care Partnership, has developed an action plan which will create a framework to enable the Partnership to deliver priority objectives. The action plan focuses on four key areas which will be continue to be developed. These are: governance, homelessness, mental health and older people.

 Governance – the group have amended their structure and agreed terms of reference to better reflect the scope of the group. This was informed by the action plan.

- Homelessness the recent Scottish Government policy, Rapid Rehousing, which encourages a change in the use of temporary accommodation by local authorities, sees the introduction of Rapid Rehousing Transition Plans. A five year plan was submitted to the Scottish Government detailing how Clackmannanshire have already reduced our use of B & B accommodation and our main concerns to be addressed to allow us to meet National policy goals. Any relevant changes to current working practices will be reflected in the Action Plan.
- Mental Health Housing and Social Work have been working closely to develop a greater understanding of different client groups with mental health issues and learning disabilities. This work has informed planning for new affordable housing by ensuring that specific client needs can be flexibly incorporated into the design stage of new homes.
- Older People The Health & Social Care Partnership is working closely with Housing in the planning and development of new core and cluster housing for older people in Alloa Town Centre.

14.0 Resources

14.1 **Completions 2022/23**

| Site | Developer | No Units | Grant 2021/22 | Grant 2022/23 | Status |
|---------------|------------|----------|------------------|------------------|----------|
| Off The Shelf | Council | 30 | | £1,290,000 | Complete |
| Off the Shelf | Ochil View | 10 | | £320,000 | Complete |
| | | | | | |

<u>40</u>

14.2 **RPA Spend 2022/23**

The table below shows all spend drawn down in 2022/23 from allocated RPA of £5.76m.

Spend in Clackmannanshire was up slightly from 2021/22 but remains well under RPA spend. This is in some part due to delays on site on Mill Street, Tillicoultry. Additionally, both the Council and Kingdom failed to secure land acquisitions with private land owners, despite lengthy negotiation, on land at Blackfaulds Street, Coalsnaughton and Carsebridge Road, Alloa.

The out-turn for new affordable housing spend in Scotland for 2022/23 is not available at the current time but Scottish Government statistics for Scotland show that new affordable housing starts are at their lowest level since 2015.²

| Site | Developer | No Units | RPA Spend 2022/23 |

15.0 New Supply

15.1 Engelen Drive, Alloa

In June 2018, elected members agreed that two blocks of Council owned flats be redeveloped as a pilot for wider demolition and regeneration plans stated in the SHIP. Demolition has been delayed due to construction down time and negotiations on the electricity sub station on site.

Funding has been secured for the demolition through Council Tax second homes money and commuted sums. Site start is delayed with acquisition by Kingdom by March 2024 and is expected to require higher than benchmark funding.

15.2 Park Street, Tillicoultry

In December 2014, Council approved the sale of land at the old Tillicoultry community centre for housing, along with a phase 2, Park Street, Tillicoultry.

The opportunity to purchase a property at Stoneyacre, with additional land was taken forward in 2020 under the 'off the shelf' program. This allowed the Council to package up a larger area of land and enable Phase 2 build.

Land is in the process of being sold to Kingdom Housing Association to develop 7 units on the site, adjacent to the popular recent development of amenity bungalows.

Kingdom Housing has been through a competitive tender process for the site and carried out a value engineering exercise with the 3 lowest tenderers and we have now reached the point where no further savings can be made and there requires an over benchmark submission to the Scottish Government.

15.3 Lochies Road, Clackmannan

This small site in Clackmannan will compliment the wider regeneration of the town centre. The site will be for low level specialist bungalow style housing. The Council is looking to get on site early in 2024.

15.4 <u>Lower Mill Street, Tilicoultry</u>

This site has been in the LDP for a long period without coming forward due to flood concerns. Work has been done to enable viability for development and a total of 74 properties could be built on the site over 3 phases. The site has been delayed due to higher than expected costs. Kingdom now have a contractor in place and site start delayed from 2022/23 with the first phase now to scheduled for completion in 2024/25.

15.5 Glentana Mill, Alva

The site is in Council ownership and was approved for transfer to HRA for development for affordable housing by Council on 24 October 2019. Initial investigations indicate the site would be capable of around 40 residential units with the option of some kind of community Hub space.

Extensive consultation has been carried out with the community in Alva using Place Standard. An architect is currently working on a detailed plan of the site and has been asked to produce 2 viable options for the site which will be reported back shortly.

Discussions with Stirling University are to further develop the collaborative work and expert input already utilised at the Primrose Street site. Drawing on feedback from community consultation, there is a need for starter accommodation as well as for older people so options for multi-generational living are being explored.

15.6 Bedford Place, Alloa

Bedford Place, Alloa has previously been used by Clackmannanshire Council as an education facility. It was deemed unfit for purpose in 2020, with major structural issues. The building has now been approved for disposal and Kingdom Housing Association is exploring developing the site for affordable housing.

The building is now in very poor condition and costs for re-development will have increased since the original costs produced in 2020. A further feasibility and cost exercise now requires to be carried out.

15.7 Pool of Muckhart

Kingdom Housing Association is working with the developers on this site to provide 12 homes for mid market rent.

15.8 Pompee Road, Sauchie

Pompee Road, Sauchie is a Council owned site, currently there are 4 chalet style properties on the site. The chalets are non traditional build and are not fit for purpose, having poor energy efficiency and coming to the end of their useful life. The best use of the site would be to re-home the current tenants in higher quality homes and to clear the site for re-development.

The site may accommodate 4 or 5 bungalow style homes and early discussions with planning will be required.

16.0 Shadow Programme (Potential Sites)

- 16.1 It is inevitable that some priority sites will not be deliverable for various reasons, such as ground conditions or financial viability. To help avoid slippage in the main programme, or in the event of additional Scottish Government funding being made available, potential sites are included in the 'shadow' programme. These sites may be substituted or added to the main programme, should the opportunity arise.
- 16.2 This approach allows additional flexibility to help ensure that the number of units and spend in Clackmannanshire is maximised. Below is a list of sites identified to date, however, it should be noted that the Council and its RSL partners are actively looking for further opportunities. Other proposals, including purchasing units from a developer, may be brought forward in addition to those listed.

16.3 Forest Mill

The section 75 agreement sets a requirement for 22% of the 1,250 homes to be affordable. There are no affordable homes programmed by the developer in phase 1 or 2, so it is likely that it will be several years before affordable housing can be expected on this site.

16.4 Brook Street, Alva

This site had previously been brought forward in the programme, but due to site constraints has been delayed. We will continue to work with the land owner.

17.0 Units in Addition to Affordable Housing Supply Programme

17.1 North Street / Main Street, Clackmannan

The Council received regeneration funding for the site with 2 old shop units on Main Street and the former print works on North Street, now demolished and construction has started on site. The redevelopment will provide 4 retail and 5 residential units to be complete by early 2024.

18.0 Consultation

18.1 This document has been developed by housing and planning colleagues in consultation with local RSLs and Scottish Government officials.

19.0 Ensuring Equalities

19.1 An equalities impact assessment is carried out on each SHIP. The SHIP has no negative impact on the six equality groups; in fact it is likely that these groups will benefit from a positive impact.

20.0 Strategic Environmental Assessment

20.1 The SHIP is part of the LHS, which had a pre-screening as required by the Environmental Assessment (Scotland) Act 2005. Clackmannanshire Council as a "responsible authority" for the purpose of the Act has determined that no SEA submission is required for this document. Specific environmental issues will be considered as part of the Local Development Plan process or when planning applications for sites are submitted.

SHIP 2024-29 PRIORITIES FOR INVESTMENT

| Site | Ownership | Effective Land Supply | Regen. / Town Centre Area | High Demand Area | Homeless Needs | Particular Needs | Planning Permission | Creating Mixed Comms | No Land constraints | Resources Available | VFM | Deliverable Now | Deliverable within 5 years |

Definitions of Criteria for Priorities

| Effective Land Supply | Listed in the Local Plan as a site that can be developed for housing. No known constraints. |
|------------------------------------|--|
| Regeneration / Town Centre Area | The site is situated within an area identified through the SIMD as a regeneration area or an identified Town Centre site, as identified in the LHS. |
| High Demand Area | Little or no social housing in the area or high demand / low turnover of existing social housing. LHS Action: 'Maximise the impact of new housing, including affordable housing in areas of demand.' |
| Homeless Needs | The site will provide accommodation for at least one homeless household. LHS Action: 'Reduce Homelessness and homeless households have access to appropriate housing.' |
| Particular Needs | The site will provide at least 10% of particular needs accommodation. LHS Action: 'Deliver specialist housing on all appropriate new housing developments.' |
| Planning Permission | The site has planning permission for housing. |
| Creating Mixed Communities | The site will provide a desirable balance of tenure in the wider area or will provide a mix of types of houses for different households within the site. LHS Action: 'Promote and increase low cost home ownership and shared equity schemes with public funding to promote tenure diversification.' |
| No Land Constraints | Land has no infrastructure blockages. |
| Resources Available | Are there resources available now ie human resources or financial resources. LHS Action: 'Work with local Housing Associations to deliver new affordable housing and maximise funding from their resources.' |
| Value for Money | The site is capable of delivering the units with benchmark HAG funding or below. |

| | LHS Action: 'Continue to develop and support innovative and flexible models for providing cost effective new housing.' |
|----------------------------|---|
| Deliverable Now | If the site meets 8 or more of the above criteria, it will be considered to be deliverable now. |
| Deliverable Within 5 years | If the site meets 6 or more of the above criteria, it will be considered to be deliverable in the coming years when resources become available. |
