

**CLACKMANNANSHIRE COUNCIL**

---

**Report to Clackmannanshire Council**

---

**Date of Meeting: 1 February 2024**

---

**Subject: Additional Support for Learning (ASL) Strategy**

---

**Report by: Improving Outcomes Team Leader**

---

**1.0 Purpose**

To present Education Services: Additional Support for Learning Strategy, which sets out how the Service will ensure that it delivers inclusive and equitable opportunities for all children and young people, but in particular for learners with Additional Support Needs (ASN).

**2.0 Recommendations**

It is recommended to approve the ASL Strategy and associated ASL Action Plan 2024-2027 (**Appendix1**) and provide comment, and challenge as appropriate.

**3.0 Considerations**

The proposed ASL Strategy follows on from the previous ASL Strategy: Equity and Inclusion 2019-2022 , which was presented to Council October 2019. In the same year the Scottish Government initiated a review of ASL, led by Angela Morgan, which led to the publication of “Support for Learning: All Our Children and All Their Potential”. Subsequently, in response to the report, the ‘Additional Support for Learning Action Plan’ was published.

Each Local Authority is expected to respond to the plan; therefore Clackmannanshire Education Service has identified the main themes of the ASL action plan as the basis for this ASL Strategy. These themes are:

- Children and Young People’s Engagement, Participation and Rights
- Parent and Carer Engagement, Participation and Rights
- Teacher and Practitioner Professionalism
- Leadership and Improvement

3.1 In November 2023, these four themes were consulted on with children and young people, parents/carers and staff. The overall response was positive. Consultation responses are attached in **Appendices 2, 3, and 4.**

- 3.2 A three year action plan from 2024 to 2027 is included as part of the ASL Strategy, which outlines: how we plan to address these themes, the outcomes we are aiming to achieve and the evidence we will gather. The plan will be reviewed annually and reported on to the Chief Education Officer.
- 3.3 This approach must be delivered in partnership with Children’s Services Social Work, particularly in relation to the external placement of children and young people with significant social and emotional needs. Partnership working is key to ensuring effective transitions for children and young people with additional support needs.
- 3.4 Implementation of this Strategy will further assist in limiting expenditure on specialist placements, as mainstream settings are empowered and upskilled to meet the needs of the majority of children and young people.

**4.0 Sustainability Implications**

The Strategy will be carried out within current education resources. The Education Service has a statutory duty to comply with ASL legislation and therefore must continue to support our children and young people will ASN.

**5.0 Resource Implications**

There are no additional financial resources associated with this Strategy; the work will be carried out within existing resources.

**6.0 Exempt Reports**

Is this report exempt?    Yes    (please detail the reasons for exemption below)    No **X**

**7.0 Declarations**

The recommendations contained within this report support or implement our Corporate Priorities and Council Policies.

**(1) Our Priorities** (Please double click on the check box)

- Clackmannanshire will be attractive to businesses & people and ensure fair opportunities for all X
- Our families; children and young people will have the best possible start in life X
- Women and girls will be confident and aspirational, and achieve their full potential X
- Our communities will be resilient and empowered so that they can thrive and flourish X

**(2) Council Policies** (Please detail)

## 8.0 Equalities Impact

8.1 Have you undertaken the required equalities impact assessment to ensure that no groups are adversely affected by the recommendations?

Yes **X** No

## 9.0 Legality

9.1 It has been confirmed that in adopting the recommendations contained in this report, the Council is acting within its legal powers. Yes **X**

## 10.0 Appendices

10.1 Please list any appendices attached to this report. If there are no appendices, please state "none".

Appendix 1 – ASL Strategy 2024-2027 and ASL Action Plan 2024-2027

## Introduction

Clackmannanshire Education Service provides a wide range of services to educate, protect, support and promote the achievements of children and young people, their families and communities. These services are delivered by our schools, early learning and childcare centres, additional support services and centralised teams working across Clackmannanshire.

Through this strategy, we aim to ensure that we deliver inclusive and equitable opportunities for *all* our learners through collaboration with stakeholders, particularly children and young people themselves and their families. We aim to remove any barriers that children and young people may experience both in terms of being able to fully participate in education, and also to develop skills to engage in life beyond school, both now and into adulthood.

This equitable and inclusive education approach provides us with the opportunity to develop flexible learning solutions rather than seeing education as a 'one-size fits all' approach. Addressing individuals' unique, and often changing needs, over time, requires us to be both flexible and creative.

Getting It Right For Every Child (GIRFEC) is the national commitment to provide all children, young people and their families with the right support at the right time. This will enable us to ensure that every child and young person in Clackmannanshire can reach their full potential.

Our People Directorate has consulted with children and young people, parents and carers, partners and staff to refresh our Vision and Values. The agreed values are: Respect, Inclusion and Collaboration.

## Legislative Context

The following legislation and guidance informs Clackmannanshire Education Service's approach to supporting children and young people with Additional Support Needs (ASN).

### **The Standards in Scotland Schools etc Act (2000)**

This Act places the expectation of the presumption of mainstream education, unless specified exemptions apply.

### **The Education (Additional Support for Learning) (Scotland) Act 2004**

This Act provides a legal framework which underpins the system for identifying and addressing the additional support needs of children and young people who face a barrier, or barriers, to learning. <https://www.legislation.gov.uk/asp/2004/4/contents>

### **Education (Additional Support for Learning) (Scotland) Act 2009**

This Act introduces amendments to the 2004 Act, the most important of which is the presumption that all Looked After and/or Accommodated Children/young People (LAAC) have additional support needs unless it is determined that they do not require additional support to benefit from school education. They should also be considered for Co-ordinated Support Plans.

### **The Children and Young People (Scotland) Act 2014**

This provides the legal framework for the implementation of the National GIRFEC approach to promoting, supporting and safeguarding the wellbeing of children and young people and improving outcomes.

<http://www.legislation.gov.uk/asp/2014/8/contents/enacted>

### **The UN Convention on the Rights of the Child (UNCRC)**

The 54 Articles of the UNCRC set out the civil, political, economic, social and cultural rights of all children and is an aspect of Human Rights legislation. It has been ratified in the UK and underpins a great deal of legislation and codes of practice relating to work with children and young people

<http://www.unicef.org.uk/crc>.

### **The Education (Scotland) Act 2016**

This supports a range of improvements to Scottish education including: improving the attainment of pupils from poorer backgrounds; widening access to Gaelic medium education; giving children a voice in matters that affect them; and extending the rights of children with additional support needs.

## National Context

In June 2020, the final report 'Review of Additional Support for Learning Implementation' was published. The Scottish Government (SG) and COSLA responded by developing a joint action plan, which was updated in November 2022. The themes in this strategy have been identified from the joint SG/COSLA Action Plan.

The Promise is a Scotland wide blueprint to deliver on the recommendations of the National Independent Care Review, and is based on five key foundations.

Clackmannanshire Council has pledged that we will work to keep The Promise, putting children and families at the heart of what we do so that every child grows up loved, safe and respected, and able to realise their full potential.

## Clackmannanshire Context

Some learners are more at risk of experiencing barriers to their learning than others due to a variety of factors such as learning difficulties, childhood adversity, physical or mental health difficulties or disabilities, care experiences, gender, ethnicity, socio-economic status, religion or sexual orientation. In Clackmannanshire, we aim for all children and young people to be present, participating, achieving and supported.

In 2022, Clackmannanshire recorded 26.7% of primary school pupils as having Additional Support Needs [ASN]; this is *a fall* on the year before [29.6%] and is now slightly lower than the Scottish average of 28.3% [the Scottish average has increased from 27.7% in 2020/21]. The most common support need remains as '*Social, emotional and behavioural difficulty*'. The percentage of secondary school pupils identified as having Additional Support Needs increased to 38.2% in 2021/22 [from 37.6% in 2020/21]. Despite the increase, this rate remains lower than the Scottish average of 40.1% [also reporting a yearly increase]. The most common support for secondary school pupils is '*Dyslexia*'. These staged intervention figures do not include the significant level of need experienced by children and young people, whose educational needs are such that they require education at specialist placements out with the authority. (Pupil Census 2022, Scottish Government Education Dataset).

## **Key Themes of Clackmannanshire Education Additional Support for Learning Strategy**

Four key themes have been identified from the ASL Action Plan as a focus:

### **Children and Young People's Engagement, Participation and Rights**

To ensure Clackmannanshire Education Service and its establishments support meaningful engagement and participation for children and young people who access additional support. To develop support to ensure children and young people with ASN are consulted in decisions that affect them, they are actively listened to and aligned with The Rights of the Child (UNCRC). This may be at an individual level, school level or local authority level.

### **Parent and Carer Engagement, Participation and Rights**

To ensure there are opportunities for parent/carers to network, have improved access to information and are considered key partners in policy development.

### **Teacher and Practitioner Professionalism**

To ensure education staff have access to high quality ASL training to enable them to effectively support children and young people with ASN. Improve networking opportunities for staff both within Clackmannanshire, the Forth Valley and West Lothian Regional Improvement Collaborative (RIC) and nationally.

### **Leadership and Improvement**

To ensure there is alignment of key policies and practice e.g. The Additional Support for Learning Implementation Plan, GIRFEC, The Promise and The Rights of the Child (UNCRC). We will continue to develop and refine processes to ensure equitable and timely access to resources and monitor the quality of support for children and young people and the ASL learning state to ensure it is of a high standard. We will continue to collaborate with partners across all sectors to improve the experiences of children and young people with ASN, especially those transitioning between schools or services. Work with Forth Valley and West Lothian RIC to continue to further develop the ASL Managers Network, building on opportunities for collaboration.

## **Consultation**

The draft strategy has been consulted on with parents/carers, pupils and staff. The consultation took the form of surveys using Citizen Space, google forms, Viewpoint and adapted, symbolised versions of the questions for our pupils with complex needs. All have agreed that these are appropriate themes, with the responses being very positive across all groups.

## **Monitoring and Reviewing of the Strategy**

Appendix 1 outlines the action plan required to implement the Strategy. This Strategy will be reviewed on an annual basis with children, young people and their families and reported on as part of the Clackmannanshire National Improvement Framework Programme.
