**Subject: Promise Plan (and Whole Family Wellbeing Fund) – Interim Update December 2023**

---

**Report by: Senior Manager (Permanence)**

---

## **1.0 Purpose**

- 1.1. The purpose of this report is to provide an interim update on the progress across the 2023-2026 Promise Plan. Integral to keeping The Promise is the priority area of Whole Family Support, therefore, this report also provides an update on the progress being made utilising the funding from the Whole Family Wellbeing Fund (WFWF) to work to improve the range of Family Support available across Clackmannanshire.

## **2.0 Recommendations**

- 2.1. It is recommended that the Audit and Scrutiny Committee note and provide challenge and comment on the contents of this report and attached appendices.

## **3.0 Background**

- 3.1. Keeping The Promise Plan 23-26 was agreed at Council in August 2023, the plan builds on the progress that has been made to Keep The Promise in Clackmannanshire. Our plan is ambitious and comprehensive with the aim of creating systematic change to improve the experiences and outcomes of care experienced children and young people, and families who require support. Across the People Directorate work continues at pace to ensure that Clackmannanshire keeps The Promise by 2030, this interim report provides an update on progress since August 2023.
- 3.2. This Plan, is aligned with the Be The Future Programme and contributes to the delivery of key strategic objectives as set out within:
- Local Outcomes Improvement Plan 2017-27 (Refresh)
  - Clackmannanshire Council's Children's Services Plan 2021-24
  - Clackmannanshire Community Justice Plan 2018-23

- Violence against Women and Girls Strategic Plan 23-24
- Clackmannanshire National Improvement Framework Plan 2023-24

3.3. While a national plan beyond 21-24 has not yet been published by The Promise Scotland, we recognise our plan to be forward thinking, based on priorities identified locally, and anticipatory of national priorities. Priority areas of change identified by The Promise Oversight Board (June 2023) relate to education, brothers and sisters, and homelessness. All of which are a strong focus within the plan.

3.4. The Scottish Government has committed to three years of WFWF funding and has set clear outcome targets. This report outlines progress made to date with WFWF funding in Clackmannanshire and how this has contributed to local short term outcomes as well as broader outcomes and targets set by WFWF.

## **4.0 Considerations**

### **4.1. Overview of The Promise in Clackmannanshire**

4.2. Progress has been made across a number of priority areas (refer to Promise Update Report Appendix 1 for more detail). Key areas of progress to highlight are:

- The introduction of a data gathering and observation tool to support the development of care experienced children aged 2-8 years.
- The role of Virtual Headteacher is promoting best practice. Includes implementation of a system to track attendance and attainment (2024 – 2025) of all care experienced young people and young people in education, to inform strategic planning, and bespoke supports for children and young people.
- Attendance tracking for all secondary schools.
- Support for brothers and sisters through development of data set to support quality assurance and planning for sibling groups. Early implementation of 'staying connected' materials to support practitioners and inform brothers and sisters policy.
- In October 2023 our Children's Services redesign became operational. This has more than doubled the early help social work resource, increased resource available to support caregivers, and provided an opportunity for locality working with schools and health visitors.
- Service improvement within the Family Placement Team has increased support available, and the confidence that foster carers have in our service. This has improved retention of foster carers and provides a stronger basis for recruitment of new carers locally.

- Implementation of new model for youth justice, including early intervention initiatives with the third sector is increasing support available to young people who offend.
- Implementation of Communities that Care combined with increased awareness of advocacy and rights ensures that care experienced children and young people in Clackmannanshire are aware of their rights and how to access support. Roll out of Communities that Care alongside role of Virtual Headteacher specifically aimed at reducing stigma and increasing support for young people within the school community.
- Review of key council policies continues through the lens of The Promise. Changes have been made to recruitment policies ensuring that all care experienced young people are eligible for a guaranteed interview regarding of where they were looked after. The appointment of a new Service Planning and Participation Officer with a remit to champion The Promise within Housing will support representation of care experienced young people and their families in future Housing policy reviews. Free school meals have been extended to all children in kinship care and who are looked after at home.
- Collaborative working between Clackmannanshire Council and the Vardy Foundation continues to develop models of care and support to increase the support available to care experienced children and young people within Clackmannanshire, with a view to developing a sustainable model which ensures children can remain within their local communities.
- Continued focus on voice and co production through design and shaping of services, and changes to practice which build on the voice of the child and the language that is important to care experience children aligned to the Language of Care Policy.

#### 4.3. **Whole Family Wellbeing Fund (WFWF)**

- 4.4. One of the key targets in the Children's Services Plan is the development of a blue print of family support to enable families to access the support they need, when they need it, ideally in a place near their home. This work has been progressed alongside the Family Support Working group and Clackmannanshire Third Sector Interface (CTSI). Two online directories are in existence. The most up to date Family Support Service map can be accessed through connect via this link <http://connect/service-areas/people/social-services/family-supports-service-map.htm> The wider directory of third sector support is accessible via this link: <https://ctsi.org.uk/members-database>
- 4.5. Another key target is to review commissioning activity to develop a broad range of effective support from early intervention placed based family support through to intensive whole family support for children at the edge of care. As part of the strategic needs analysis and review activity undertaken, it was agreed that a consortium approach to commissioning of family support would

assist in delivering this objective as well as ensuring that the families who need support have a voice and are valued partners in the process.

- 4.6. The aim of a consortium approach is to align funding streams and activity wherever possible in order to meet objectives. For example, funding has been provisionally allocated to this consortium from the Child Wellbeing Partnership and the Alcohol and Drug Partnership. Funding from the Family Wellbeing Partnership has also been used to support identified gaps in befriending and digital mental health supports for adults. These activities will, over time move towards being part of the family support consortium arrangements.
- 4.7. It is hoped that through this activity we will move toward a less competitive, more inclusive and family led approach to commissioning, which will equip us to expand our early intervention resources within the community. It is intended that consortium arrangements will be concluded by April 2024, although extension may be required to ensure a truly collaborative and user led approach.
- 4.8. This Scottish Government funding aims to enable us to grow our Family Support services in Clackmannanshire and to upscale early help and prevention provision, in line with the principles of The Promise. Achieving this goal will also assist Clackmannanshire in its goal to support families to stay together and reducing the use of external placements. Due to the current high numbers of children subject to statutory orders and looked after away from Clackmannanshire, the bulk of the award has been used to ensure that appropriate supports are available to support children to remain within their own families or return to Clackmannanshire. Appendix 2 outlines the spending of the WFWF and the distribution of a grant provided to CTSI in order for a grant process to be administered by them with a specific focus on expanding early intervention provision.

## **5.0 Next Steps**

- 5.1 Based on this interim report, evaluation and feedback, the Directorate will continue to respond to the ongoing needs, as well as drive forward continuous improvement activity to shape and deliver our services in order to keep The Promise to children and families in Clackmannanshire.

## **6.0 Sustainability Implications**

- 6.1. The WFWF funding aims to enable Family Support services in Clackmannanshire shift toward early intervention, in line with the principles of The Promise. Achieving this goal will also assist Clackmannanshire in its goal to reduce external placements.
- 6.2. The work ongoing with the Vardy Foundation is aimed at developing more sustainable models of residential care and support for care leavers in line with The Promise, supporting more young people in their local community and reducing reliance on external providers.

## 7.0 Resource Implications

7.1 Clackmannanshire has received £337,000 from the WWF for 2022-23 and 2023-24. The full financial implications of the recommendations are set out in the report. This includes a reference to full life cycle costs where appropriate.
